

Morse Twin SR control

Morse®

*(single-function control
— each lever controls
throttle OR shift)*

Ideal for inboards and multiple station boats, SR Twin is rugged and made with the finest marine grade materials. Removable cover enables easy access to the mechanism. Includes adjustable brakes and stops. Accepts universal control cables. Optional detent kits and neutral safety switch available. Additional hardware is required for twin station use.

(accepts these cables:)

OEM/Univ. 3300/33C Types

Universal 3300/33C Types

Universal 4300/43 Types

Applications:

Ideal for inboards, stern drives and outboards, Twin SR controls are suitable for single or dual stations and can utilize 3300/33C or 4300/43 type cables.

Not suitable for use with Mercury® and OMC® OEM type control cables.

Features:

- Polished stainless steel cover, marine grade chrome levers and rugged cast hanger plate.
- Removable cover enables easy access to the control mechanism.
- Adjustable brakes and stops.
- Optional neutral safety switch to prevent starting in gear.
- Optional shift detent kit (if used in dual stations; use on main station only).
- Uses 3300/33C and 4300/43 type cables.
- Mechanical advantage - shift 3.10:1/throttle 3.10:1.
- Meets/exceeds all applicable industry standards.

NOTE: When properly installed, these engine controls will connect to outboard, stern drive and inboard engines, utilizing universal 3300/33C and 4300/43 type cables and engine connection kits. (These controls are not designed to use Mercury/Mariner® and OMC® OEM type control cables that have “eye” terminals at the control end of the cable.)

(May require purchase of cable connection kit(s) to complete control system installation.)
